

DESIGN FEATURES

- 208-230/460V, 1.15 SF; also rated for 50Hz at 1.0 SF on nameplate (50Hz, 190/380V)
- NEMA Design B
- NEMA Premium Efficiency
- Class F Insulation System
- Meets NEMA MG1 Part 31.4.4.2
- Inverter Duty Speed Range 10:1 CT and 20:1 VT
- HPE™ - High Pulse Endurance spike resistant wire for inverter duty applications
- Reinforced end turn lacing
- Dual mounting holes for frame 180T~280T
- 90° rotatable oversized and gasketed conduit box
- Stainless steel nameplate
- Three year warranty
- CSA Certified, EEV and UL Listed
- CSA Energy Efficiency Verification (EEV)
- Voltage - 230/460V (Useable on 208V), 575

**ROLLED STEEL
ODP PREMIUM**

TECO-Westinghouse ROLLED STEEL ODP PREMIUM motors are engineered and designed for environments where dirt and moisture are minimal. Premium efficiency and inverter duty ratings make it a cost saving and diverse motor for all your light industrial and commercial needs.
